Imation Laser Toner

Compatibility Folder

Imation Laser Toner

Original Manufacturer quality at a remanufactured price. Saves Resources. Saves Money. Same Quality.
Imation is a leading global developer and marketer of branded products that enable people to capture, save and enjoy digital information. In addition to Imation's commitment to delivering high-quality digital storage products Imation has expanded its portfolio to include earth-friendly remanufactured, high-quality Laser toner cartridges.

Imation:

+ Cares for Operations - Reduce Printing costs
+ Cares for User - OEM like quality

DID YOU KNOW?

Imation´s high quality remanufactured toner cartridges are 100% inspected prior to remanufacturing and critical components, e.g. photo-conductor drums, blades, as well as any component showing wear patterns are replaced. The remanufacturing process allows Imation to deliver a high performance product at a lower cost with less waste. The Imation portfolio of fax, copier and laser printer toner cartridges meet stringent quality requirements, stand for high reliability and are supportive for the environment.

QUALITY

Product Quality you can rely on. On all our Toner products we offer a lifetime warranty. The Imation high quality remanufactured Toner Cartridges are designed to fit exactly to your printers and the specific technical needs. They are tested as being 100% perfect, i.e. each cartridge is installed in a test printer and a number of test pages are printed using special templates. These are then inspected by our experts in the test department with regard to a number of attributes such as print density, page yield, pin-sharp clarity and the quality of the components. Long-term tests are additionally performed on each production lot to ensure that there are no deviations from the Imation standard.

A key aspect of the quality of Imation high quality remanufactured Toner Cartridges is that only virgin empties are employed, i.e. products are made using only original cartridges which have only been emptied once. This effectively eliminates the potential risks to reuse components already showing wear and quality degradations, which can occur with multiple use. All components showing wear after a certain number of pages are replaced. This enables us to guarantee quality equal to that of the original.

Imation high quality remanufactured toner cartridges:

+ are manufactured in an ISO 14001 and 9001 certified facility
+ are manufactured following ASTM/STMC and ISO/IEC 19752 test standards

IMATION EARTHWISE CONCEPT

IMATION REMANUFACTURED TONER CARTRIDGES

Imation is dedicated to applying outstanding environmental stewardship and reducing impacts on the Earth wherever possible. What better way to apply this philosophy than by remanufacturing high-quality Imation toner cartridges.

Imation remanufactured toner cartridges meet original manufacturer quality standards. Each cartridge contains a new drum, new toner, re-conditioned or replaced parts and a recycled plastic shell. The Imation Earthwise remanufacturing process allows Imation to deliver a high performance at a lower cost with less waste. Complete the cycle and be part of it!

REDUCE WASTE - PROTECT ENVIRONMENT - SAVE ENERGY

+ Recycling saves energy - Remanufactured toner cartridges do save lots of energy compared to manufacturing new toner cartridges!
+ Recycling saves raw materials - to manufacture new toner cartridges - new raw materials are required. Retrieval of those raw materials do harm resources and our environment
+ Recycling protects our environment - Saving energy and raw materials means "active" environmental protection and shows sense of responsibility towards future generations.

In general the Imation high quality remanufactured toner cartridges are made to meet the Imation Earthwise standards.

In detail this stands for: **Earth friendly…**

… Earth-friendly Imation cartridges contain Reconditioned or replaced parts

+ Recycled plastic shell
+ A new drum and new toner to ensure high quality performance
+ No less than 80% of the Imation toner cartridge carton is made from post-consumer recycled materials.

Each year, more than 300 million plastic printer cartridges are thrown away. By recycling this Imation remanufactured toner cartridge you are helping reduce waste in our nation's overburdened landfills.

For information on how to recycle your Imation toner cartridge, please visit www.collecture.com

Lifetime Guarantee

Imation offers you lifetime guarantee on all the Imation Toner products. The 3rd Party supplier is a company for print consumables certified in compliance with DIN EN ISO 9001:2000. It maintains a quality management system which specifies compatibility with the respective OEM article for all new articles and constant high quality.

Quality Assurance: Initially all empty cartridges are separated into their individual parts and carefully cleaned. All parts required for actual printing are replaced with the appropriate new parts to guarantee constant high quality. Then the cartridges are filled, assembled and subjected to a printing test. In addition, continuous printing tests are also carried out in parallel to ensure a high yield and long service life.

Lifetime Warranty: Imation guarantees that the product that you purchased does not exhibit errors in material and processing over its entire life span. Toner cartridges have a limited durability, this warranty shall apply until the durability date of the product as indicated on the product. If there is no durability date on the packaging, a guarantee period of two years from the purchase date shall apply.

Exclusions: This warranty does not apply to (1) any physical damage to the surface of the product including but not limited to cracks or scratches; (2) any damage caused by misuse, neglect, improper installation or testing, attempts to open, repair or otherwise to modify the product, or any other cause beyond the scope of the use as a normal printer cartridge for printer (s) as may be indicated on the packaging; (3) damages caused by accident, fire, power changes, other hazards and acts of God.

IMATION PORTFOLIO OVERVIEW

Optical Media
Extensive range of reliable optical products for professional use

Flash Drives
For trustworthy data protection on the move

Data Storage Media
Professional media for professional use

Hardware
Smart solutions for home and professional use

Laser Toner
Original Manufacturer quality at a remanufactured price

Solid State Drives
Fast and reliable, with high shock and temperature resistance

About Imation Imation is a leading global developer and marketer of branded offerings that enable people to capture, save and enjoy digital information. Our world-class portfolio of digital storage products, audio and video electronics, and accessories reaches customers through a powerful global distribution network.
